Most of this data is on the yellow header spreadsheet from Cabot. I can go over the data for the three homes of concern tomorrow. Bob is off work through the weekend and I can certainly handle this myself. I am pretty sure we don't have most of the supporting data packages for this at this point.

Subject: Data

Bob, because of the volume and diversity of all the data, we need you to go back on the spreadsheets you prepared and footnote where you captured particular values. Maybe that already exists on some version?
We really need this info as soon as possible given the arrival of new data that is significantly different than the values you reference.

Call anytime if want talk more about it.

Thanks
